**XIII. TELECOM BYTES**

✍ *Ericson & Alcatel Lucent expect data traffic on the world's mobile networks to increase 30 times through 2015, Huawei, expects the traffic lever to rise 500 times by 2020.*

**Source: Hindustan Times**

✍ *Alcatel Lucent, in association with other industry partners developed **lightRadio** a light 6 cm Radio Cube containing a radio, amplifier, and passive cooling unit, which reduces complexities of base and power consuming mobile phone towers. The light Radio facilitates broad band coverage at any place having power. The technology uses a software powered radio that can handle 2G, 3G and 4G traffic using a common antenna*

✍ *Huawei, the worlds second largest equipment maker, introduced a new cellphone base station that transmits in all five commonly used frequency bands. Previously, operators had to use five times as much equipment.*

**Source: Mint**

✍ *In US, AT &T, Verizon and T-Mobile formed a joint venture with Barclays Bank and Discover Financial Services which required customers to sign up for the latter's credit card to launch mobile payments. It left Visa and MasterCard on the sidelines.*

**Source: Financial Chronicle**

✍ *MIIT gave China Mobile permission to begin large scale tests of its TD-LTE Netowrk. The trials of 4G Technology are expected to last for 18 months.*
